

6000 Series

6000 Series

Heavy-duty Air
Filtration for Large, Severely
Contaminated Environments

The 6000 series features a selection of heavy-duty air purifiers, ideal for large homes, businesses and industries.

With up to 36 pounds of activated carbon, these units feature the most filtration media available for chemical and odor adsorption, as well as a HEPA filtration system for airborne particles.

Choose from our 6000 series for severely contaminated environments, areas with continuous sources of pollution or for the most complete protection available.

1 Customizable Features

a Activated Carbon Blend

Exec Blend: Our Exec carbon is our general-purpose blend, ideal for trapping a wide range of airborne chemicals, gases and odors.

Vocarb Blend: Our Vocarb carbon is our boosted blend, offering a more aggressive removal of hard-to-trap airborne chemicals, gases and odors. This blend is best suited for newly renovated environments, unknown contaminants and/or formaldehyde.

Custom Blend: Have an unusual IAQ problem? Let us customize the perfect carbon blend solution!

b Filter Depth

A unit's filter depth is key to its adsorption capacity. Customize your unit with a 2.5" (regular), 3" (deep or "D") or 3.5" (extra-deep or "DX") carbon bed filter to maximize its chemical-adsorption efficiency.

2 Optional Features

a Virus, Mold & Bacteria Protection

Customize your air purifier with a UV light to provide additional protection from viruses, mold and bacteria. Add a photocatalytic reactor to your UV option for the most advanced protection!

b HVAC

Adapt your air purifier to duct into your central air heating and cooling systems, to provide an ideal filtration system for your whole home. Our HVAC units are identified with an "AH".

c

Source Capture

Prevent dangerous toxins from becoming airborne by trapping them at the source. Our source capture units are identified with a "W".

d

Available Colors

 * Black  White  Sandstone

* The 6000 W is available in black only

Technical Specifications	Carbon Filter	Rated CFM	Filtration System	Shipping Weight	Dimensions	Options
6000 Exec	24 lbs.	400	<ul style="list-style-type: none"> Carbon filter, 2.5" BED Medical-grade HEPA, pre-filter 	Approx. 57 lbs.	23.5" (height) x 15" (diameter)	<ul style="list-style-type: none"> UV Light Custom Carbon Blend Photocatalytic
